

Mission-Critical Solutions Built on Experience and Trust

Susan Jabbusch
CEO

For more than 40 years, Carolina Advanced Digital, Inc. (CAD, Inc.) has provided enterprise hardware, secure infrastructure, and managed technology services to U.S. Federal agencies, commands, and organizations.

Since 1984, we have supported more than 2,200 Federal entities, including the Executive Office of the President, each of the Armed Services, 215 military commands, and a dozen U.S. Embassies. We deliver, integrate, and support enterprise hardware, secure networking, and managed technology solutions CONUS and OCONUS.

As a long-standing, trusted partner to the Federal government, CAD, Inc. delivers reliable, compliant technology solutions with the expertise and dedication that only four decades of focused federal service can provide.

“ I just wanted to add some feedback regarding the customer service received by this company. Never have I had such one on one service regarding the purchasing and delivery of items ordered through SEWP. They are an excellent company and I hope they will be around for a long time!”

– CO from a Civilian Agency

“ BPA Call Order encompassed shipping over 13,000 systems to 125 locations. Carolina Advanced Digital, Inc. provided superior customer service by registering each of the 13,163 support licenses, so that the staff at the main agency did not have to use additional hours to obtain quick access to OEM support. Carolina Advanced Digital, Inc. provided superb level of service to ensure appropriate delivery with proactive notification of all shipping information and tracking of every unit with serial numbers.”

– CO from a Civilian Agency
